## QUALITY POLICY

---

- Decustik - Mecanitzats de la Fusta Kim, S.L. has the mission of designing and manufacturing panels with decorative and/or acoustic functions made of wood and similar materials, for highly personalized interior design projects.
- Quality is a key element that sets us apart as a company and provides us with a competitive advantage. With this quality policy, we aim to be recognized as a reliable company with whom to establish professional and commercial relationships.
- Through the implementation of our Quality Management System, we commit to continuously improving our processes, complying with all applicable regulatory requirements for our products, maintaining cost competitiveness to ensure the future of the company, preventing environmental impacts in our surroundings, and benefiting our users and society at large.
- We consider our customers, employees, suppliers, shareholders, and the community in which we operate as stakeholders of our company. Our goal is to meet the identified requirements of all stakeholders by working collaboratively and for mutual benefit.
- We demonstrate our commitment to the environment through the sustainable use of energy resources, reducing our impact on climate change, and complying with applicable legal regulations.
- To achieve our quality improvement and environmental impact reduction objectives, the company has established specific actions within our management system. These actions include obtaining FSC and PEFC certifications, as well as implementing the ISO 9001 standard, quality controls, incident management, and other relevant measures. Additionally, we have enhanced the quality training of our staff and expanded our knowledge of the environmental footprint of our company through the development of product environmental declarations that allow us to effectively measure and reduce our environmental impact.

July 2023 / Decustik - Mecanitzats de la Fusta Kim, S.L.
